

Paris Déco Off...

15 > 18 January 2025

A HAND-STITCHED EDITION

- The international décor showcase Paris Déco Off/Home is returning for a new edition, tailored and cinched for you over four days.
- Come and discover our 160 décor producers at their showrooms and pop-ups, with plenty of regulars and brand-new faces from France and farther afield.
- Sample the freshest tastes of the era in new collections of fabrics, trimmings, wallpaper, furniture, ornaments, lighting, tableware and more. You are sure to find the right essentials and accessories to transform your interior.
- Passage Saint-Sulpice builds on its success as it moves back to its namesake square. This replica of a typical Parisian covered passage will present rows of showrooms arranged under giant, wallpaper-clad lamps.
- For this new edition, we are celebrating “Fashion in Décor, Décor in Fashion”. This seamless, harmonious pairing of worlds will feature at all the iconic locations along the event route.
- ESMOD fashion school, a Paris Déco Off/Home partner, is an international benchmark in the world of style. The school will be calling upon décor producers to help design and craft a number of models.
- Back to indulge your curiosity are our attractions on either side of the Seine, including the giant lamps decked out in new fabrics and wallpapers by the décor producers of Paris Déco Off, the Festival of Fabrics with its curtains draped over façades of buildings, the oversized outdoor furniture creations, and a whole host of new surprises.
- And as always, you can avail of our free shuttles throughout the four days of the event. This service lets visitors travel with total ease, bringing them from one spot to the next between the Left and Right Banks.
