

Paris Déco Off...

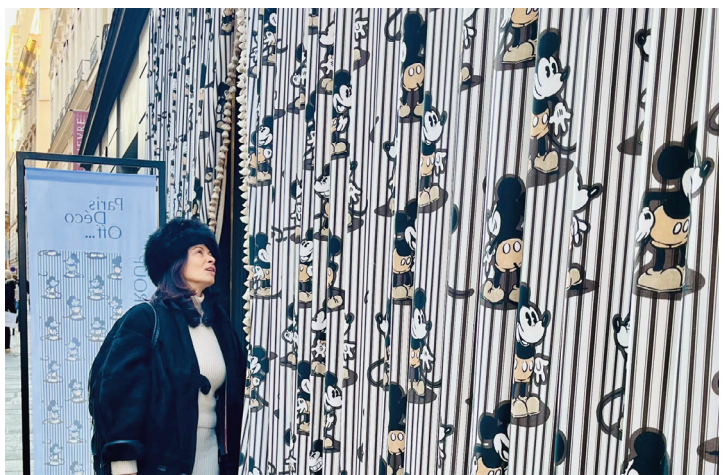

15th to 18th January 2025

In 2025, we celebrate the 15th and 5th anniversaries of Paris Déco Off and Paris Déco Home

This year marks a very special edition of two complementary, cross-disciplinary events. Both HOME (furniture, lighting, ornaments, tableware etc.) and OFF (fabrics, wallpaper, trimmings etc.) have consistently brought fresh energy to the décor world while delivering on their promises:

- With a cutting-edge concept in contrast to that of the large trade show, they instead extend a warm, friendly, homely welcome to visitors in showrooms and pop-ups at the heart of a vibrantly decorated Paris.
- This 100% free festival (complete with shuttle transport offering transfers between the Left and Right Banks) attracts 40,000 yearly visitors both from the industry and the general public.
- This is an annual spotlight for brands to open their doors to the public, appeal to younger generations and continue to build international renown, particularly by developing their contract and export markets.
- The twofold event also breathes fresh life into essential décor trends, having helped raise the profile of wallpaper and outdoor furniture, for instance.
- A kaleidoscopic array of ideas and alternatives for chic interiors may be found at the themed, open-air attractions, from oversized lamps and furnishings to cardboard furniture creations, designer interior layouts, the Festival of Fabrics and more. This year is guaranteed to impress with the theme of "FASHION IN DECOR, DECOR IN FASHION" in partnership with ESMOD.
- Each year brings greater excitement from participating brands, who are ever more delighted to be chosen and to attend.
